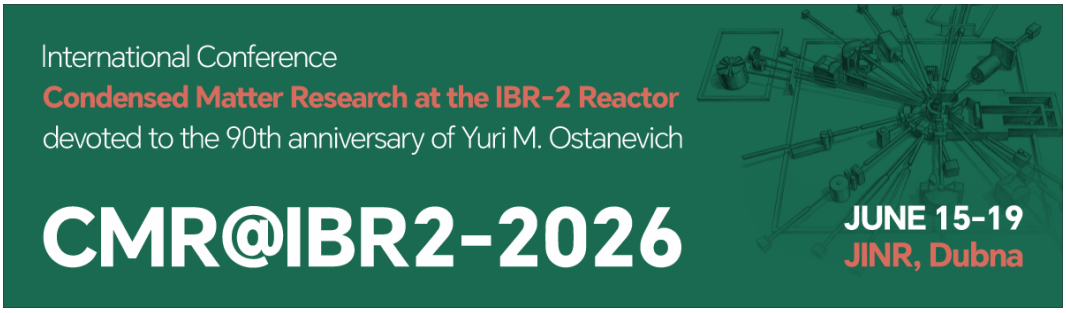
Session Program

15–19 Jun 2026



International Conference on Condensed Matter Research at the IBR-2 devoted to the 90th anniversary of Yury M. Ostanevich

Functional and nanostructure materials 1st Session

Wednesday 17 June

09:30

Functional and nanostructure materials 1st Session: - Chairman: A. H. Elmekawy

Session | **Location:** 20 Joliot-Curie St., MLIT, Dubna, Moscow Region, Russia, 141980

09:30–09:50 **MAGNETIC PHASE TRANSITION IN Y1-xTbxMn6Sn6 COMPOUNDS**

Speaker
Sergey Grigoryev

09:50–10:10

Femtosecond Laser Ablation: a Universal Nanostructuring Approach for Functional wan der Waals Materials

Speaker
Andrei Ushkov

10:10–10:30

Study of the effect of random local anisotropy on the properties of amorphous ferromagnets

Speaker
Liubov Azarova

10:30
