

MATHEMATICAL MODELING AND COMPUTATIONAL PHYSICS 2026

303 participants

23 Plenary reports
175 Sectional reports

18 Countries:

Armenia
Belarus
Bulgaria
Canada
China
Egypt
Georgia
Iran
India
Kazakhstan
Mongolia
New Zealand
Rwanda
Russian Federation
Romania
Slovakia
Vietnam
Uzbekistan

Russia was represented by participants **from 44 universities and research centers**.

JINR, DUBNA

MATHEMATICAL MODELING AND COMPUTATIONAL PHYSICS 2026

Conference Topics:

- Mathematical methods and tools for modeling complex physical systems;
- Mathematical methods in life sciences;
- Modern methods for data processing and analysis in Mega-science projects in HEP;
- Machine learning and big data analytics;
- Methods of quantum computing and quantum information processing;
- Numerical and analytical calculations in modern mathematical physics;

MATHEMATICAL MODELING AND COMPUTATIONAL PHYSICS 2026

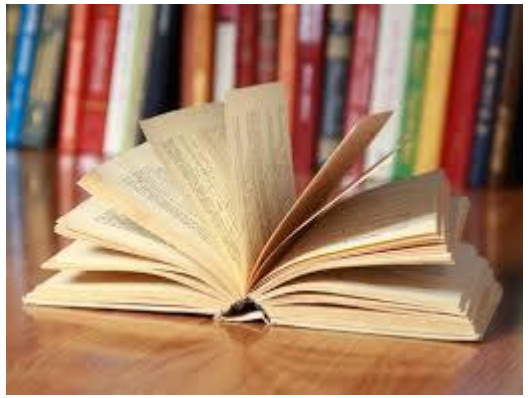
Publications



Selected speakers will be invited to publish in **Natural Science Review**

The information about preparing proceedings for **Physics of Particles and Nuclei** :

till September 13th 2026 and sent to mmcp2026@jinr.ru

Types of Paper

Plenary talks - max 10 pages

Sectional talks - max 4 pages

Other details will be sent in the next informational letter and mmcp2026.jinr.ru: Proceedings
