

VII International Conference “Models in Quantum Field Theory” (MQFT-2022)

Thursday, 13 October 2022

Section E: Section talks - Room 2 (14:30 - 16:15)

time	[id] title	presenter
14:30	[130] Lax representation of supersymmetric Calogero-Moser models	SUTULIN, Anton
14:55	[50] Gaudin model with arbitrary complex spin	UVAROV, Filipp
15:20	[116] Schwarzians with extended supersymmetry	KRIVONOS, Sergey
15:45	[8] Super Yangians, Affine Super Yangians and Quantum Loop Superalgebras	STUKOPIN, Vladimir

Section E: Section talks - Room 2 (16:45 - 18:30)

time	[id] title	presenter
16:45	[115] Shapovalov elements for classical and quantum groups.	MUDROV, Andrey
17:10	[114] --	
17:35	[160] --
