

Contribution ID: 107

Type: **not specified**

**The studies of the monolithic active pixel sensors
characteristics and investigations of new
ultra-lightweight support and cooling carbon-fiber
structures with high radiation transparency for MPD
vertex detector**

Friday, 23 October 2020 17:00 (20 minutes)

RFBR grant 18-02-40075

Presenter: NESTEROV, Dmitrii (St Petersburg State University)

Session Classification: Parallel session IV
