

Contribution ID: 22

Type: **not specified**

**Study of production features, modeling and optimization of algorithms for reconstruction of short-lived hadron resonances in the MPD experimental setup at the NICA collider**

*Thursday, 22 October 2020 12:00 (25 minutes)*

RFBR grant 18-02-40038

**Presenter:** RIABOV, Viktor (PNPI)

**Session Classification:** Precision tracking and the production of light hadrons, strangeness, hyper-nuclei, and heavy-flavor
