

Contribution ID: 46

Type: **not specified**

**Lattice study of the properties of QCD in extreme conditions: temperature and density, rotation, magnetic field.**

*Tuesday, 20 October 2020 16:55 (25 minutes)*

RFBR grant 18-02-40126

**Presenter:** BRAGUTA, Victor (ITEP)

**Session Classification:** Theoretical studies of the dense baryonic matter produced in heavy-ion collisions at NICA
