

Contribution ID: 46

Type: **not specified**

Lattice study of the properties of QCD in extreme conditions: temperature and density, rotation, magnetic field.

Tuesday, 20 October 2020 16:55 (25 minutes)

RFBR grant 18-02-40126

Presenter: BRAGUTA, Victor (ITEP)

Session Classification: Theoretical studies of the dense baryonic matter produced in heavy-ion collisions at NICA
