

Contribution ID: 48

Type: **not specified**

## **Study of the signals of hot and dense nuclear matter in heavy ion collisions at the energies of the NICA complex using micro- and macroscopic models**

*Wednesday, 21 October 2020 14:00 (25 minutes)*

RFBR grant 18-02-40084

**Presenter:** ZABRODIN, Evgeny (Department of Physics, University of Oslo)

**Session Classification:** Theoretical studies of the dense baryonic matter produced in heavy-ion collisions at NICA
