

Contribution ID: 50

Type: not specified

Investigation of the properties of nuclear matter under conditions of extreme temperatures and densities attainable at the energies of the NICA accelerator complex

Wednesday, 21 October 2020 14:50 (25 minutes)

RFBR grant 18-02-40137

Presenter: KALINOVSKY, Yuri (Joint Institute for Nuclear Research)

Session Classification: Theoretical studies of the dense baryonic matter produced in heavy-ion collisions at NICA
