

The Conference "RFBR Grants for NICA"

Friday, 23 October 2020

Parallel session IV (14:20 - 18:00)

-Conveners: Yuri Murin

time	[id] title	presenter
14:20	[32] Status of HIC assembly preparations in Russia and China	SHEREMETEV, Aleksie
14:40	[33] Progress in design and production of ultra-light mechanics for the MPD ITS and its integration scenario with the MPD TPC	VORONIN, Alexey
15:00	[87] Front-end readout electronics for BM@N STS	SHITENKOV, Mikhail
15:20	[88] Bonding test procedure developed for the assembly of BM@N STS modules	KOLOZHVARI, Anatoly
15:40	Coffee	
16:00	[94] Status of the BM@N STS module assembly	SUKHOV, Nikita
16:20	[90] Progress in preparations for the BM@N STS ladder assembly	ELSHA, Vladimir
16:40	[91] Laser setup for quality assurance of BM@N silicon tracking modules	KHARLAMOV, Petr
17:00	[107] The studies of the monolithic active pixel sensors characteristics and investigations of new ultra-lightweight support and cooling carbon-fiber structures with high radiation transparency for MPD vertex detector	NESTEROV, Dmitrii
17:20	[117] TBA
