

Status of the works in the MPD Hall, MPD Pit and the assembly of the MPD Magnet

[Dr. N.Topilin](#)

Professor of the Russian Academy of Natural Sciences
JINR, Dubna

Nearest Goal: MPD Yoke assembly with Movement System (MS) and Cryostat

MPD Yoke (L=8970 mm, \varnothing 6625 mm)

28 plates
16 t each

2 support rings
42.5 t each

2 poles
44 t each

Total: 621 t

Material:
Steel 10
(AISI 1010)
forging

Lodgement (Yoke support) – 74 tons, ordinary steel St.3 (Fe 360)
2 Pole transport support – 15 tons each, ordinary steel St.3 (Fe 360)

MPD Pit:

08_Oct_2018

Plate top surface non flatness 0.4 mm/30 m

12_11_2018

Rails side
strightness
0.2 mm/30 m

20_08_2019

Rails planarity
0.4 mm/30 m

19_Sept_2019

09_Sept_2020

Two bright months from “MPD life” (22 June -19 August, 2020)

17 July

19 July

21-22 July

23 July: 1-st 16 t plate (from 28) installation

24 July: 2-nd plate installation

24 July: 5-th plate installation

29 July: 13 plates are in assembly

30 July: Pins (33H7/p6) installation with nitrogen (fit 1-26 mcm)

31 July: Pole transport
support assembly

04 August

07 August

06 August

10 August

10 August: 44 t Pole installation on transport support

11 August: Support ring #1 (6.7 m, 42 tons) installation

12 August: 13 plates and 2 support rings are assembled

Measurements by «Промышленные измерения», S.Peterburg

- Rails non planarity: top surface – 0.4 mm and side surfaces – 0.2 mm on length 30 m
- 12 stands height deviations – 0.1 mm max
- Stands shape deviation – 0.2 mm max
- 7 plates in assembly – non planarity 0.5 mm
- 13 plates in assembly – non planarity 0.58 mm max
- Support ring W non symmetrical position – 0.02mm
- Support ring E non symmetrical position – 0.03 mm

8970 mm is nominal dimension

The highest point is taken as zero. All values in mm.

19 August: Lifting beam of 75 t capacity for Cryostat test

Light support for
Cryostat unloading
from transport structure

SPD Hall

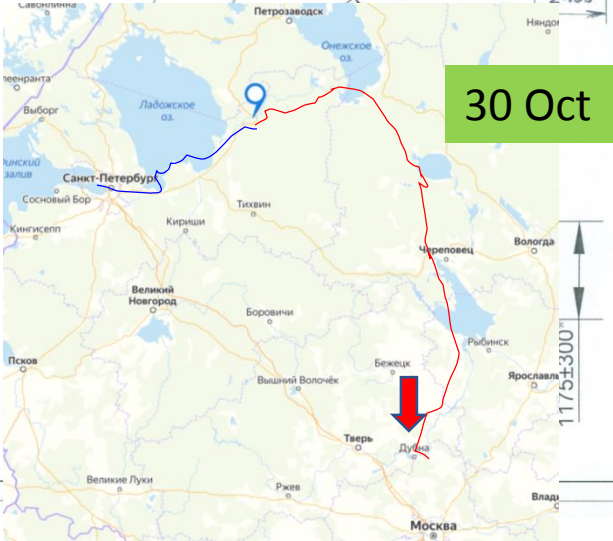

23.5 tons x 4=94 t

MPD magnet in the transport container

Total way: ASG Genova-Venezia-Antwerpen-
Sankt-Peterburg-Dubna (river port)-
-VBLHEP

Control weight
41.5 tons

Conclusions

The geometry of MPD yoke half assembly is extremely excellent.
The real dimensions tolerances and deviations from shapes
in 2-3 and more times less than requirements.

But ASG Grand Supervisor tell to us:

STOP assembly, wait us...

We wait ...

Thanks for your attention!
