

JOINT INSTITUTE FOR NUCLEAR RESEARCH

ABSTRACT of the Minutes of the Scientific and Technical Council №22 Frank Laboratory of Neutron Physics

19 November, 2020

Total number of STC members: 35

Number of STC members attending the session: 27

4. FLNP STC **heard** the report by Dr. Doroshkevich with the proposal for opening of the new project “Modernization of the EG-5 accelerator and its experimental infrastructure” (Modernization of the EG-5 accelerator) within scope of the theme “Investigations of Neutron Nuclear Interactions and Properties of the Neutron” (theme leader: E.V. Lychagin) for the period of 1 year.

FLNP STC held an open vote (24 – agree, 0 – object, 0 – abstain) and **decided**:

1. To approve the justification text for opening of the new project “Modernization of the EG-5 accelerator and its experimental infrastructure” (Modernization of the EG-5 accelerator), with the formulated tasks, the work stages and the expected results, with account of the comments made by the STC.
2. To recommend the JINR PAC for Nuclear Physics to open the new project within scope of the theme “Investigations of Neutron Nuclear Interactions and Properties of the Neutron” (theme leader: E.V. Lychagin) for the period of one year (first stage, 2022) with the first priority.

Project leader: A.S. Doroshkevich.

FLNP STC Chairman

A.I. Frank
