Studies of the Silicon Strip Detector properties of the EXPERT project

Wednesday, 4 October 2017 14:30 (15 minutes)

Presentation is devoted to the studying of the time characteristics of silicon strip detector and multi-channel front-end electronics TAMEX2. Such detector will be one of the EXPERT and Super-FRS setup modules in experiments at FAIR for investigation the properties of exotic nuclei.

Presenter: Mr MUZALEVSKY, Ivan (JINR)

Session Classification: Oral session: Mathematical Modeling and Computational Physics
