The 6th International Conference "Distributed Computing and Grid-technologies in Science and Education"

Thursday, 3 July 2014

Posters - 4 floor (13:00 - 14:00)

[id] title	presenter	board
[29] Modeling of Behavior of the Option. The Formulation of the Problem	Mrs PANCHENKO, Marina	
[125] PERFORMANCE OF THE OPENMP AND MPI IMPLEMENTATIONS ON ULTRASPARC SYSTEM	Mr KYAW, Zaya	
[126] IMPROVEMENT OF COMPUTATIONAL ABILITIES IN COMPUTING ENVIRONMENTS WITH VIRTUALIZATION TECHNOLOGIES	Mr KYAW, Zaya	
[58] On the performance of storage in cloud environment	Dr RUSSKOV, Alexander	
[57] On the development of distributed infocommunication system for science and education	Dr RUSSKOV, Alexander	
[56] Elastic personal clusters on Cloudstack	Mr ZAROCHENTSEV, Andrey Dr KOMPANIETS, Mikhail	
[111] Distributed application compilation on several virtual nodes	Mr KROSHENINNIKOV, Artem	
[81] Cloud computing for virtual testbed	Mr SWE, Myo Min	
[102] Алгоритмическое построение явных численных схем и визуализация объектов и процессов в вычислительном эксперименте в гидромеханике	Ms EZHAKOVA, Tatyana	
[62] Естественные модели параллельных вычислений	Dr ERSHOV, Nikolay	
[76] Hardware platforms of parallel and distributed simulation technology	Mr MYO MIN, Swe Mr KYAW, Wunna	
[74] Неоднородные клеточные генетические алгоритмы	Dr ERSHOV, Nikolay	
[73] PiLite: a unified interface to local resource managers on supercomputing resources	Ms DUBENSKAYA, Yulia
