

The 6th International Conference "Distributed Computing and Grid-technologies in Science and Education"

Tuesday, July 1, 2014

Section 8 - Optimization problems and distributed computing - 310 (4:30 PM - 7:00 PM)

-Conveners: Alexander Afanasiev

time	[id] title	presenter
4:30 PM	[47] Промежуточное программное обеспечение, предоставляющее контроль над балансировкой нагрузки уровню бизнес логики приложения	IAKUSHKIN, Oleg
4:50 PM	[70] Implementation of the optimal trajectories continuation method in a distributed computing environment	Prof. AFANASIEV, Alexander Ms PUTILINA, Elena
5:10 PM	[41] An automated system for program parameters fine tuning in the cloud	Mr SMIRNOV, Sergey
5:30 PM	[105] High-level optimization modeling software in distributed computing environment	Mr VOLOSHINOV, Vladimir
5:50 PM	[104] Customizable system for coarse-grained parallel schemes in branch-and-bound algorithm for discrete optimization	Mr SMIRNOV, Sergey
6:10 PM	[93] Solving large scale optimization problems on desktop grids and combined distributed infrastructures	Dr POSYPKIN, Mikhail
