

**Estimated expenditures for the Project STAR (JINR participation)**

Investigation of the properties of nuclear matter and particle structure at the collider of relativistic nuclei and polarized protons  
(full title of Project)

Expenditure items	Full cost	2022	2023	2024
Direct expenses for the Project				
1. Accelerator, reactor	-	-	-	-
2. Computers	-	-	-	-
3. Computer connection	-	-	-	-
4. Design bureau	-	-	-	-
5. Experimental Workshop	-	-	-	-
6. Materials	15	5	5	5
7. Equipment	60	20	20	20
8. Construction/repair of premises	-	-	-	-
9. Payments for agreement-based research	45	15	15	15
10. Travel allowance, including: a) non-rouble zone countries b) rouble zone countries c) protocol-based	165	55	55	55
<b>Total direct expenses</b>	<b>285</b>	<b>95</b>	<b>95</b>	<b>95</b>
