

Helmholtz International Summer School "Hadron Structure, Hadronic Matter, and Lattice QCD"

Thursday, 24 August 2017

Students' presentations - Conf. Hall, 2 floor (15:30 - 17:30)

time	[id] title	presenter
15:30	[47] Two-Component Landau Liquid Model for Two-Color QCD	SERENONE, Willian
15:50	[48] Simulating low dimensional finite density QCD on Lefschetz Thimbles	ZIESCHÉ, Felix Andreas
16:10	[49] Non-conformal anisotropic solutions in 5-dimensional Maxwell-dilaton gravity	RANNU, Kristina
16:30	[50] Topology, Thermal Simulations and Boundary Conditions	FLORIO, Adrien
