

Mini-Workshop on "Lattice and Functional Techniques for Exploration of Phase Structure and Transport Properties in Quantum Chromodynamics"

Monday 10 July 2017

Free Discussion: "Quark localization and spectral correlations in lattice QCD" (a project proposal) (15:10 - 15:50)

-Conveners: Lukas Holicki

time	[id] title	presenter
15:10	[7] "Quark localization and spectral correlations in lattice QCD" (a project proposal)	Mr HOLICKI, Lukas

Tuesday 11 July 2017

Free Discussion: "Status and possibilities for lattice QCD with three colors at finite baryonic density" (15:10 - 15:50)

-Conveners: Atsushi Nakamura; Vitaly Bornyakov

Wednesday 12 July 2017

Free Discussion: "Future of thermal lattice QCD in Dubna" (15:50 - 16:50)

-Conveners: Ernst-Michael Ilgenfritz; Maria Paola Lombardo

Thursday 13 July 2017

Free Discussion: "Modeling heavy ion collisions with different time scales" (14:10 - 14:50)

-Conveners: Kyrill Bugaev

Free Discussion: "What can we learn from simulations of QCD-like theories (which have no sign problem)?" (15:10 - 15:50)

-Conveners: Victor Braguta; Lorenz von Smekal

Friday 14 July 2017

Free Discussion: Discussions/Projects (13:30 - 14:30)
