

## Список научных публикаций Быстрыкова А.Д.

1. Alekseev et al. (DANSS collaboration), «Optimized scintillation strip design for the DANSS upgrade». JINST, 17 P04009 (2022);
2. I. Alekseev et al. (DANSS collaboration), «Observation of the temperature and barometric effects on the cosmic muon flux by the DANSS detector». arXiv:2112.03702 (2022) submitted to the EPJC.
3. I.B. Nemchenok, Yu. A. Shitov, I.A. Suslov, S.V. Kazartsev, V.V. Belov, A.D. Bystryakov, «Research and development of a new Te-loaded liquid scintillator based on linear alkylbenzene». Submitted to Nuclear Instruments and Methods in Physics Research Section A: Accelerators, Spectrometers, Detectors and Associated Equipment.
