

Список научных трудов сотрудника научно-экспериментального отдела встречных пучков ЛЯП Потрапа Игоря николаевича

- “*Alignment of the ATLAS muon spectrometer with tracks using MILLEPEDE method*”, COM-MUON-2007-017
- “*The alignment system of the barrel part of the ATLAS muon spectrometer*”, ATL-MUON-PUB-2008-007
- “*Alignment of the ATLAS muon spectrometer with tracks*”, DPG 2008: Fachverband Teilchenphysik, t53.1
- “*Initial alignment of the ATLAS muon spectrometer with straight tracks*”, DPG 2010: Fachverband Teilchenphysik, t55.3
- “*Alignment of the ATLAS muon spectrometer with tracks*”, Nuclear Inst. and Methods in Physics Research, A 617 (2010), pp. 186-187
- “*Alignment of the Inner Detector and of the Muon Spectrometer of the ATLAS Experiment*”, Physics at the LHC 2010, Hamburg
- “*Alignment of the ATLAS muon spectrometer with tracks*”, DPG 2011: Fachverband Teilchenphysik, t69.2
- “*Measurement of the Energy Resolution and Calibration of Hybrid Pixel Detectors with GaAs:Cr Sensor and Timepix Readout Chip*”, Physics of Particles and Nuclei Letters, 2015, Vol. 12, No.1, pp. 97-115.
- “*Alignment and Resolution Studies of a MARS CT Scanner*”, Physics of Particles and Nuclei Letters, 2015, Vol. 12, No. 5, pp. 725-735.
- “*Developing Production Technology and Control Methods for Micromegas Detectors*”, Physics of Particles and Nuclei Letters, 2021, Vol. 18, No. 3, pp. 323–337.
