

## First announcement (2023 г.)

Dear colleagues!

We invite you to the Armenian meeting-2023 "Climate change: adaptation" (Armenia - March 27-28, 2023). Well-known scientists will report about the laws of adaptation and evolution, about effects of climate changes on speciation in ecosystems and microbial communities. It is planned to discuss joint research to study changes in the structure of bacteria and determine the localization of epizootics with an increased risk of mutations in bacteria.

The organizers and sponsors are Armenian scientific organizations AANL(YerPhI), YSU, CANDLE, Scientific Center of Zoology and Hydroecology NAS RA. Main organizer is AANL(YerPhI).

Best wishes,

Organizing Committee
