

THIRD ANNOUNCEMENT

ARMENIAN MEETING-2023. Climate changes: Adaptation.

AANL(YerPhI), March 27-28 2023

The Armenian meeting is dedicated to the adaptation of biota communities, including pathogenic bacteria, in the radiation landscape of mountains caused by climate change. The meeting in AANL(YerPhI) includes reports and discussion on investigation projects. The conference is hybrid: reports can be online and personal.

The Opening of the conference will be held on March 27, 2023 at 10.00 a.m. in the A.I. Alikhanyan National science Laboratory in Armenia. The arrival days are March 26, and departure day is March 28. The working language will be English; all reports must be in English.
