

10th International Conference "Distributed Computing and Grid Technologies in Science and Education" (GRID'2023)

Contribution ID: 311

Type: not specified

Quantum variational algorithm for the ground state of the Ising model in the transverse magnetic field.

Monday, 3 July 2023 17:30 (15 minutes)

Division of Computational Physics, MLIT, JINR

Summary

Main blocks of the algorithm are discussed. An implementation of the algorithm on a planar lattice is presented.

Primary authors: BOGOLUBSKAYA, Alla (JINR, Dubna); YANOVICH, Denis (senior researcher); Dr PALII, Yuri (Division of Computational Physics, MLIT, JINR)

Presenter: Dr PALII, Yuri (Division of Computational Physics, MLIT, JINR)

Session Classification: Quantum informatics and computing

Track Classification: Quantum informatics and computing
