10th International Conference "Distributed Computing and Grid Technologies in Science and Education" (GRID'2023) / Programme

Thursday, 6 July 2023

10th International Conference "Distributed Computing and Grid Technologies in Science and Education" (GRID'2023)

Thursday, 6 July 2023

Workshop "Computing for radiobiology and medicine" (14:00 - 16:00)

time	[id] title	presenter
14:00	[378] Information system services based on machine learning methods and data analysis technologies for applied radiobiological research BIOHLIT (MLIT and LRB JINR)	STRELTSOVA, Oksana
14:15	[323] Разработка алгоритмов и веб-сервиса для автоматизации анализа данных в поведенческом тесте «Водный лабиринт Морриса»	BEZHANYAN, Tatevik
14:30	[276] Distributed modular platform for working with neurocognitive experiments data (MRI/fMRI)	ENYAGINA, Irina
14:45	[268] Neutron Spectra Unfolding by the Trial Function Expansion Method from the Readings of a Finite Number of Bonner Spectrometers	CHIZHOV, Konstantin
15:00	[233] The automatization of the medical diagnosis on the basis of an X-ray images of a patient with the restrictions of both possible errors on the desired levels	KACHIASHVILI, Kartlos
