

# IUPAP Conference "Heaviest nuclei and atoms"

## Saturday 29 April 2023

### Applied physics (09:00 - 11:10)

time	[id] title	presenter
09:00	[99] Supercomputer Govorun	KORENKOV, Vladimir
09:30	[100] Track etched membranes: state of the art and ongoing research at the Center of Applied Physics of FLNR	NECHAEV, Alexander
09:50	[101] Applied research at NICA facility	BELOV, Oleg
10:10	[107] Development of electron accelerators for fundamental research and applied purposes at SINP MSU	SHVEDUNOV, Vasilii
10:30	[104] Physical properties of composite thermoregulation coatings irradiated with high-energy particles	ALEKSANYAN, Eduard
10:50	[103] Radiobiological effects of accelerated ultrashort electron beams	AROUTIOUNIAN, Rouben
