

XXV International Baldin Seminar on High Energy Physics Problems
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXV International Baldin Seminar
on High Energy Physics Problems
Relativistic Nuclear Physics & Quantum Chromodynamics
September 18 - 23, 2023, Dubna, Russia

Contribution ID: 177

Type: **not specified**

Differential equation approach in calculation of Feynman diagram

Thursday, 21 September 2023 17:40 (20 minutes)

Presenter: BYTEV, Vladimir (JINR)

Session Classification: Parallel: Structure functions of hadrons and nuclei
