

XXV International Baldin Seminar on High Energy Physics Problems
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXV International Baldin Seminar
on High Energy Physics Problems
Relativistic Nuclear Physics & Quantum Chromodynamics
September 18 - 23, 2023, Dubna, Russia

Contribution ID: 179

Type: **not specified**

Beam polarimetry in the NICA collider using a proton cluster target

Friday, 22 September 2023 15:30 (20 minutes)

Presenter: PISKUNOV, Nikolay (JINR, Dubna)

Session Classification: Parallel: Polarization phenomena, spin physics
