

XXV International Baldin Seminar on High Energy Physics Problems
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXV International Baldin Seminar
on High Energy Physics Problems
Relativistic Nuclear Physics & Quantum Chromodynamics
September 18 - 23, 2023, Dubna, Russia

Contribution ID: 180

Type: **not specified**

Measurement of analyzing power in $n+CH$ scattering at 3.75 GeV/c

Friday, 22 September 2023 15:50 (20 minutes)

Presenter: KIRILLOV, Dmirty (Joint Institute for Nuclear Research, Laboratory of High Energy Physics)

Session Classification: Parallel: Polarization phenomena, spin physics
