

XXV International Baldin Seminar on High Energy Physics Problems  
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXV International Baldin Seminar  
on High Energy Physics Problems  
*Relativistic Nuclear Physics & Quantum Chromodynamics*  
September 18 - 23, 2023, Dubna, Russia

Contribution ID: 182

Type: **not specified**

**Basic concepts of relativistic nuclear physics  
formulated by A.M.Baldin and their development as  
applied to the acceleration complex NICA**

*Friday, 22 September 2023 14:30 (20 minutes)*

**Presenter:** BALDIN, Anton (JINR)

**Session Classification:** Parallel: Dynamics of multiparticle production
