

XXV International Baldin Seminar on High Energy Physics Problems
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXV International Baldin Seminar
on High Energy Physics Problems
Relativistic Nuclear Physics & Quantum Chromodynamics
September 18 - 23, 2023, Dubna, Russia

Contribution ID: 185

Type: **not specified**

Experiments to search for singlet deuteron and problem of the dineutron

Friday, 22 September 2023 11:40 (20 minutes)

Presenter: BORZAKOV, Sergey (FLNP JINR)

Session Classification: Parallel: Quantum chromodynamics at large distances
