

XXV International Baldin Seminar on High Energy Physics Problems  
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXV International Baldin Seminar  
on High Energy Physics Problems  
*Relativistic Nuclear Physics & Quantum Chromodynamics*  
September 18 - 23, 2023, Dubna, Russia

Contribution ID: 188

Type: **not specified**

**Studies of the nucleons structure using the SIDIS  
azimuthal angle asymmetries calculated with  
modified double ratios of numbers of the hadrons**

*Saturday, 23 September 2023 10:20 (20 minutes)*

**Presenter:** Dr KOUZNETSOV, Oleg (JINR, Dubna)

**Session Classification:** Plenary
