

Models for estimating temperature effects in a reactor core

Monday 30 October 2023 21:40 (20 minutes)

The work presents approaches to estimation temperature effects occurring in the reactor core. Rough approximations for fuel assemblies and core design are considered.

Primary authors: Prof. SHABALIN, Evgeniy (JINR); PODLESNYY, Maxim (FLNP JINR)

Presenter: PODLESNYY, Maxim (FLNP JINR)

Session Classification: In-person poster session & welcome drinks

Track Classification: Particle Accelerators and Nuclear Reactors
