Аннотация на русском языке.

¹ This is English translation of the abstract

² PACS: 44.25.+f; 44.90.+c

⁴ Introduction

⁵ The “PEPAN Letters” journal accepts and publishes manuscripts sub-
⁶ mitted in Russian or English. All papers are subject to refereeing. Authors
⁷ should make a careful survey of the literature to ensure that papers do not
⁸ duplicate previous work and that relevant existing knowledge has been taken
⁹ into account. By submitting a paper for publication in PEPAN Letters the
¹⁰ authors imply that the material has not been published previously nor has
¹¹ been submitted for publication elsewhere.

¹² Paper Preparation

¹³ A manuscript should contain the text in the LaTeX or Word formats and
¹⁴ files of figures. All pages should be numbered, and the manuscript must
¹⁵ include all necessary elements of the paper. The first page of the manuscript
¹⁶ should include the title of the paper, the initials, surnames and affiliations
¹⁷ (including country, city, zip code, and address for correspondence) of all
¹⁸ the authors followed by the short abstract. At least one of the authors
¹⁹ should provide an e-mail address for correspondence. PACS indexes must be
²⁰ indicated (see <http://www.aip.org/pacs>) after the abstract.

²¹ In formulas, all roman letters denoting physical quantities should be ital-
²² ized E, V, m, etc.). Vectors must be in bold type without arrows over the

23 letters. Similarity numbers (Ar, Re, etc.), functions (sin, arcsin, sinh, etc.),
24 conventional mathematical abbreviations (max, min, opt, const, idem, lim,
25 log, ln, det, exp), chemical elements (Cl, Fe), etc., should be in roman type.
26 With the exception of abbreviations including those of surnames, which must
27 be in roman type, letters in sub- and superscripts should be in lowercase ital-
28 ics.

29 Figures (see Fig. 1) must be clearly readable and of good quality. It
30 is desirable to submit each figure in the form of an individual file in the
31 Encapsulated PostScript format (*.eps) or in the Portable Document Format
32 (*.pdf). Raster artwork should be at least 300 dpi at 100% (Full print size).
33 If a color figure is submitted, please, make sure to upload in addition a usable
34 black and white version required to correctly reproduce the artwork in print.

35 Cited references must be given in a general list at the end of a manuscript
36 and should be numbered by the consecutive numerals as they are mentioned
37 in the main text. The list of references must have the heading REFER-
38 ENCES. All references should include *full list of authors* with only exception
39 being collaboration papers. It is not permissible to cite unpublished works.
40 Examples of references [1–8] are as follows
