

ATTENTION!

The competition for young scientist for the I.M. Frank and F.L. Shapiro scholarships for 2024 will be held at the FLNP.

The applications must be submitted **by November 30**. They must contain a list of published articles during last 5 years, an annotation in Russian (1-2 pages) reflecting your personal contribution to these works. The annotation must also indicate the section (area) of the competition for which the application is being submitted. The recommendation of the Head of the Group or Sector must also be attached to the documents. All these documents must be uploaded to the website:

<https://indico.jinr.ru/event/4129/overview>

Five I.M. Frank scholarships are awarded annually in the following areas of research:

- Condensed Matter Physics;
- Nuclear Physics;
- Methodological Investigations;
- Development of Basic Facilities.

Four F.L. Shapiro scholarships are awarded annually in the following areas of research:

- UCN Physics;
- Polarized Neutrons;
- Neutron Spectroscopy;
- Condensed Matter Physics;
- Methodological Support of Experiments in Neutron Physics.

The scholarship is awarded for the period of 1 year. The age of the researcher should not exceed 35 years (as of December 31 of the current year). The scholarship amount and the number of scholarships for each area may be changed by the joint decision of the FLNP Directorate and the Jury. The scholarship is not awarded to the same person for two consecutive years.
