Научно-исследовательские теоретические работы: Научно-исследовательские теоретические работы - 475 (10:00 - 11:00)

time	[id] title	presenter
10:00	[1] Differential equations method for expansion of hypergeometric functions	BEZUGLOV, Maxim
10:15	[2] The stabilization of octupole deformation in heavy and superheavy atomic nuclei	MARDYBAN, Evgenii
10:30	[3] Production of heavy neutron-rich nuclei with the magic number N=126 in the multinucleon transfer reactions induced by radioactive ion beams	SAIKO, Vyacheslav
10:45	[4] A method for numerical solution of a time-dependent Schrödinger equation based on Lee-Trotter-Suzuki formula	ZAKHAROV, Maxim
