

July 29, Monday

Chairmen: **10:00-11:00 - Evgeny Ivanov**
11:30-13:00 - Mikhail Vasiliev
14:30-16:30 - Dmitry Ponomarev
17:00-18:20 - Konstantin Stepanyantz

10:00 - Opening!	
10:15-11:00	Armen Nersessian <i>Comments on some integrable models of supersymmetric mechanics</i>
11:00-11:30	<i>Coffee break</i>
11:30-12:15	Alexey Isaev <i>Generalization of the Bargmann-Wigner approach to constructing relativistic fields</i>
12:15-13:00	Anton Galajinsky <i>Remarks on integrability of $N=1$ supersymmetric Ruijsenaars-Schneider models</i>
13:00-14:30	<i>Lunch</i>
14:30-15:00	Sergey Krivonos <i>Higher Spin Schwarzians</i>
15:00-15:30	Sergey Derkachov <i>Reflection operator and iterative construction of eigenfunctions for noncompact $SL(2, \mathbb{C})$ open spin chains</i>
15:30-16:00	Andrey Mudrov <i>Quantum super-spherical pairs</i>
16:00-16:30	Timofei Snegirev <i>Generalized non-relativistic fluid dynamics with conformal symmetries</i>
16:30-17:00	<i>Break</i>
17:00-17:20	Nikolai Gromov <i>Standard Model for contracted gauge group</i>
17:20-17:40	Diego Cirilo-Lombardo <i>Quantum-spacetime symmetries: a principle of minimum group representation</i>
17:40-18:00	Nikita Kolganov <i>CMV basis for integrability and chaos</i>
18:00-18:20	Dmitry Rudinsky <i>Weak gauge PDEs and non-Lagrangian systems</i>
18:30 - Welcome Party!
