Clouds of JINR, University of Sofia and INRNE - current state of the project

Thursday, 13 September 2018 16:30 (15 minutes)

JINR established a cloud based on OpenNebula. It is open for integration with the clouds from the member states. The paper presents current (first year) state of the 3 years project that aims to create a cloud backbone in Bulgaria. University of Sofia and INRNE participate in that initiative. This is a target project funded by JINR based on the research plan of the institute.

Primary author: Prof. DIMITROV, Vladimir (University of Sofia)

Co-authors: SVETOSLAV, Hristov (INRNE); KOUZMOV, Kouzma (University of Sofia); Mr BALASHOV, Nikita (JINR); Dr KUTOVSKIY, Nikolay (JINR); Dr HRISTOVA, Radoslava (University of Sofia / JINR); Dr KORENKOV, Vladimir (JINR)

Presenter: Prof. DIMITROV, Vladimir (University of Sofia)

Session Classification: 6. Cloud computing, Virtualization

Track Classification: 6. Cloud computing, Virtualization
