

Information-software environment for the GOVORUN Supercomputer

Kirakosyan M., Podgainy D., Streltsova O., Torosyan Sh., Vala M.

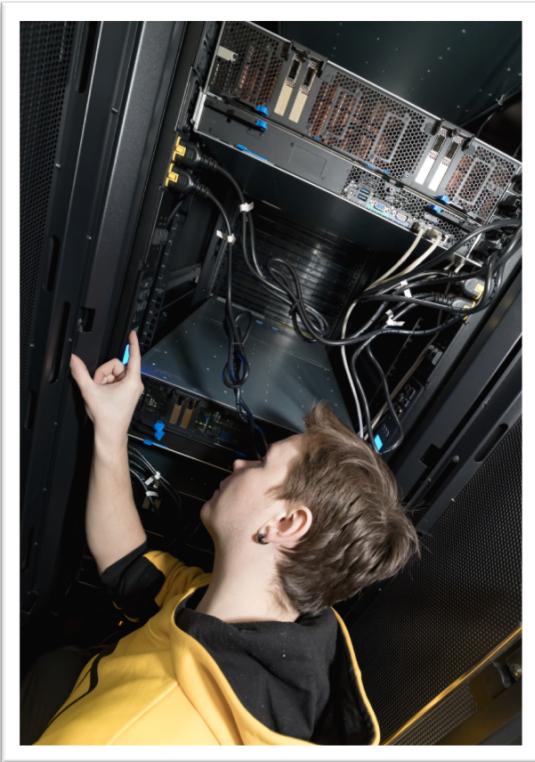

Heterogeneous Computations team

LIT JINR

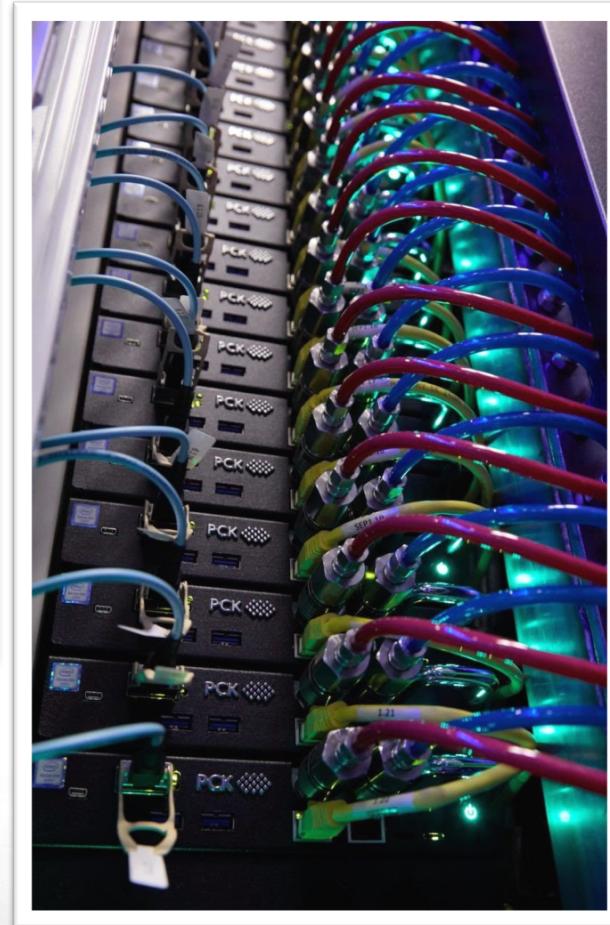

**“Govorun” Supercomputer –
revolutionary HPC solution**

GOVORUN Supercomputer. GPU component.

GOVORUN Supercomputer. CPU component

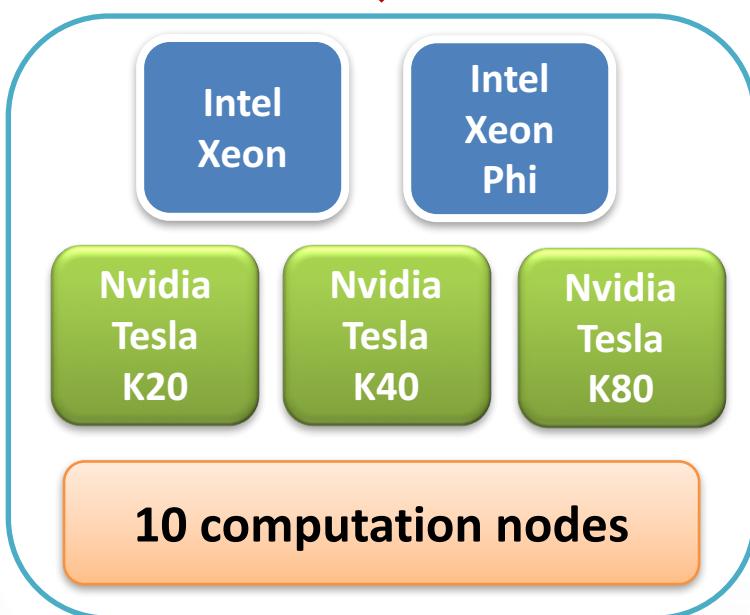

HybriLIT heterogeneous platform

Unified software and information
environment

Training and testing polygon
“HybriLIT”

“Govorun” Supercomputer

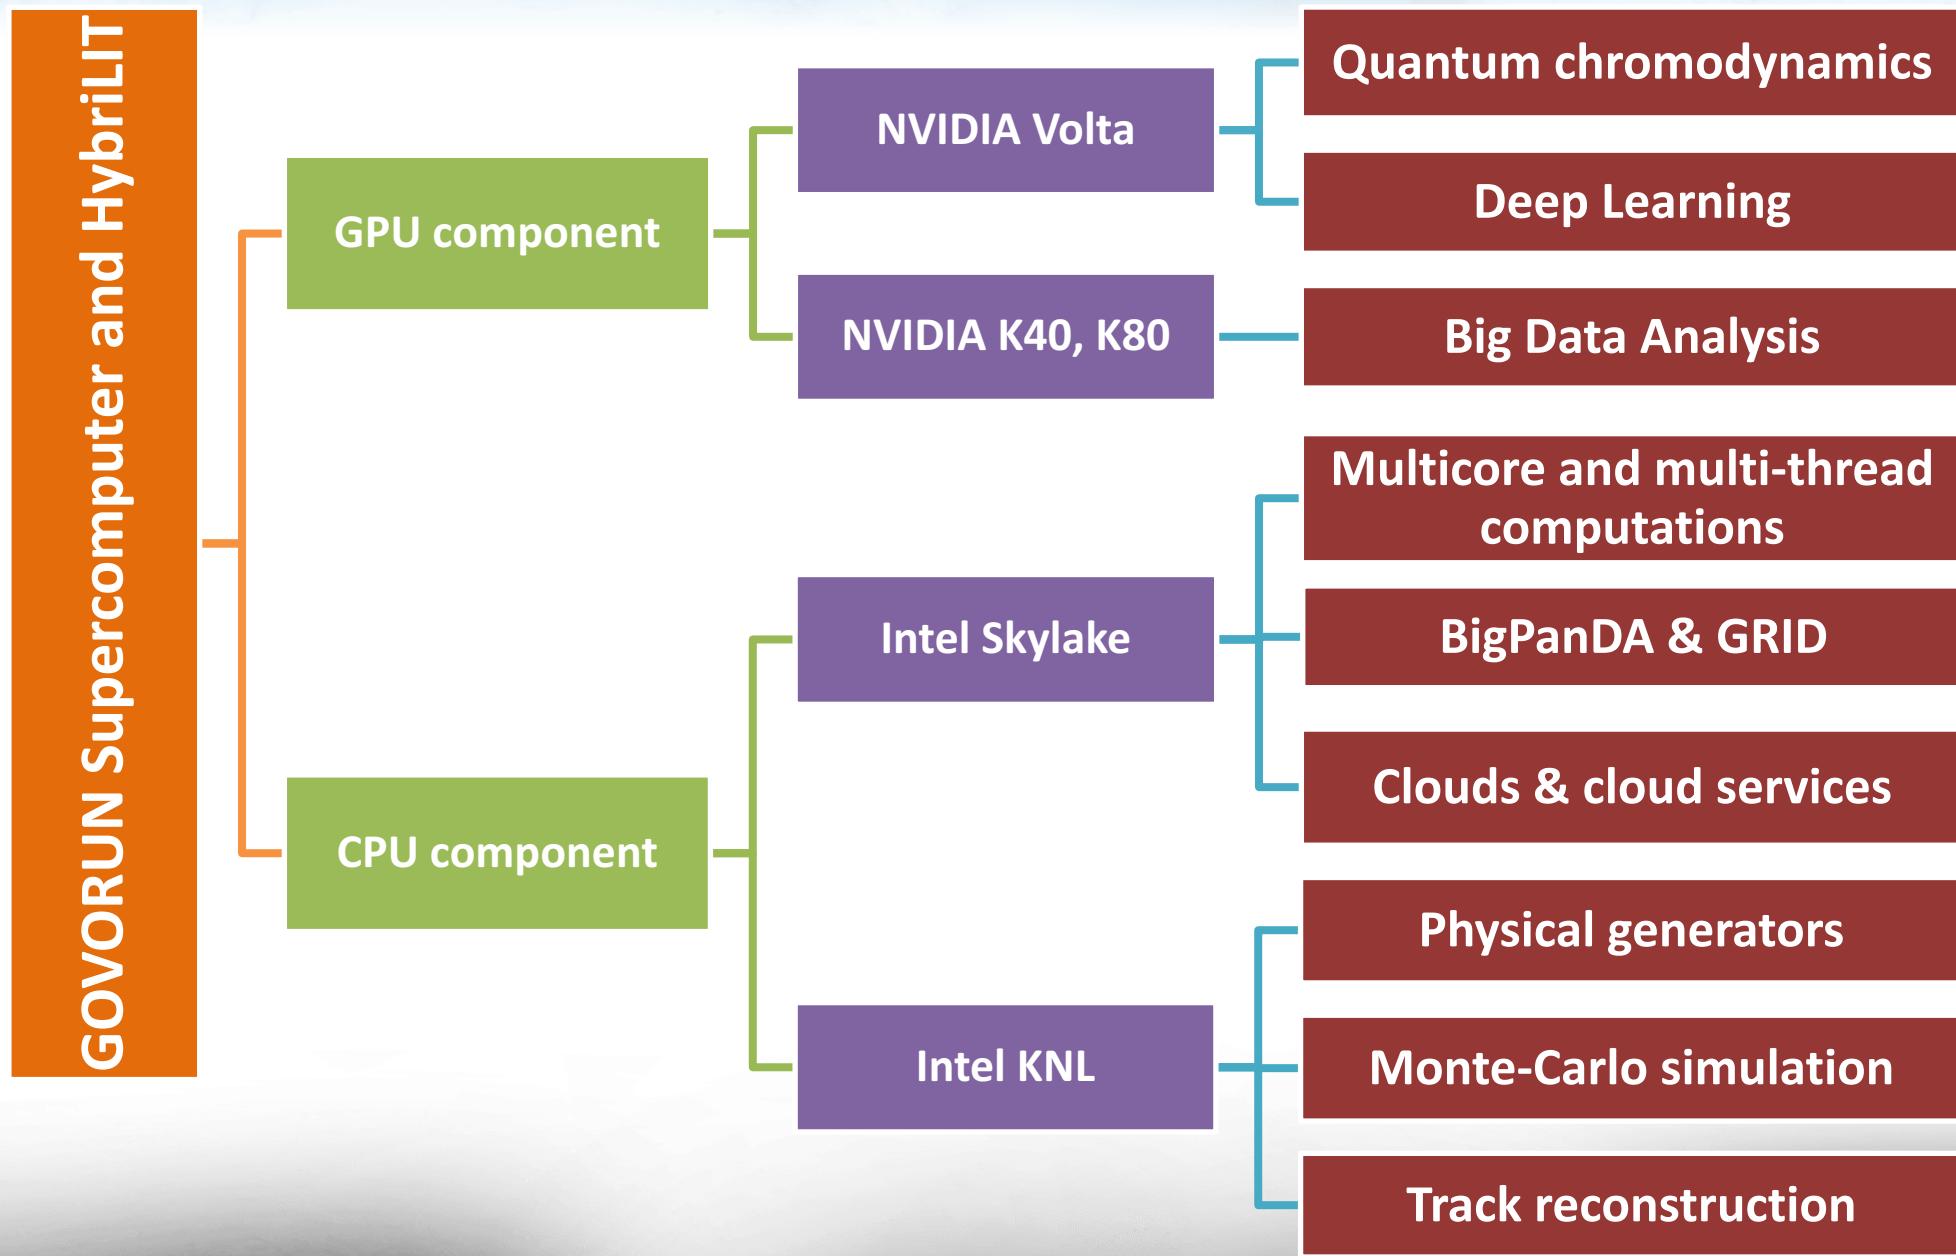

Skylake
1440 cores

KNL
1512 cores

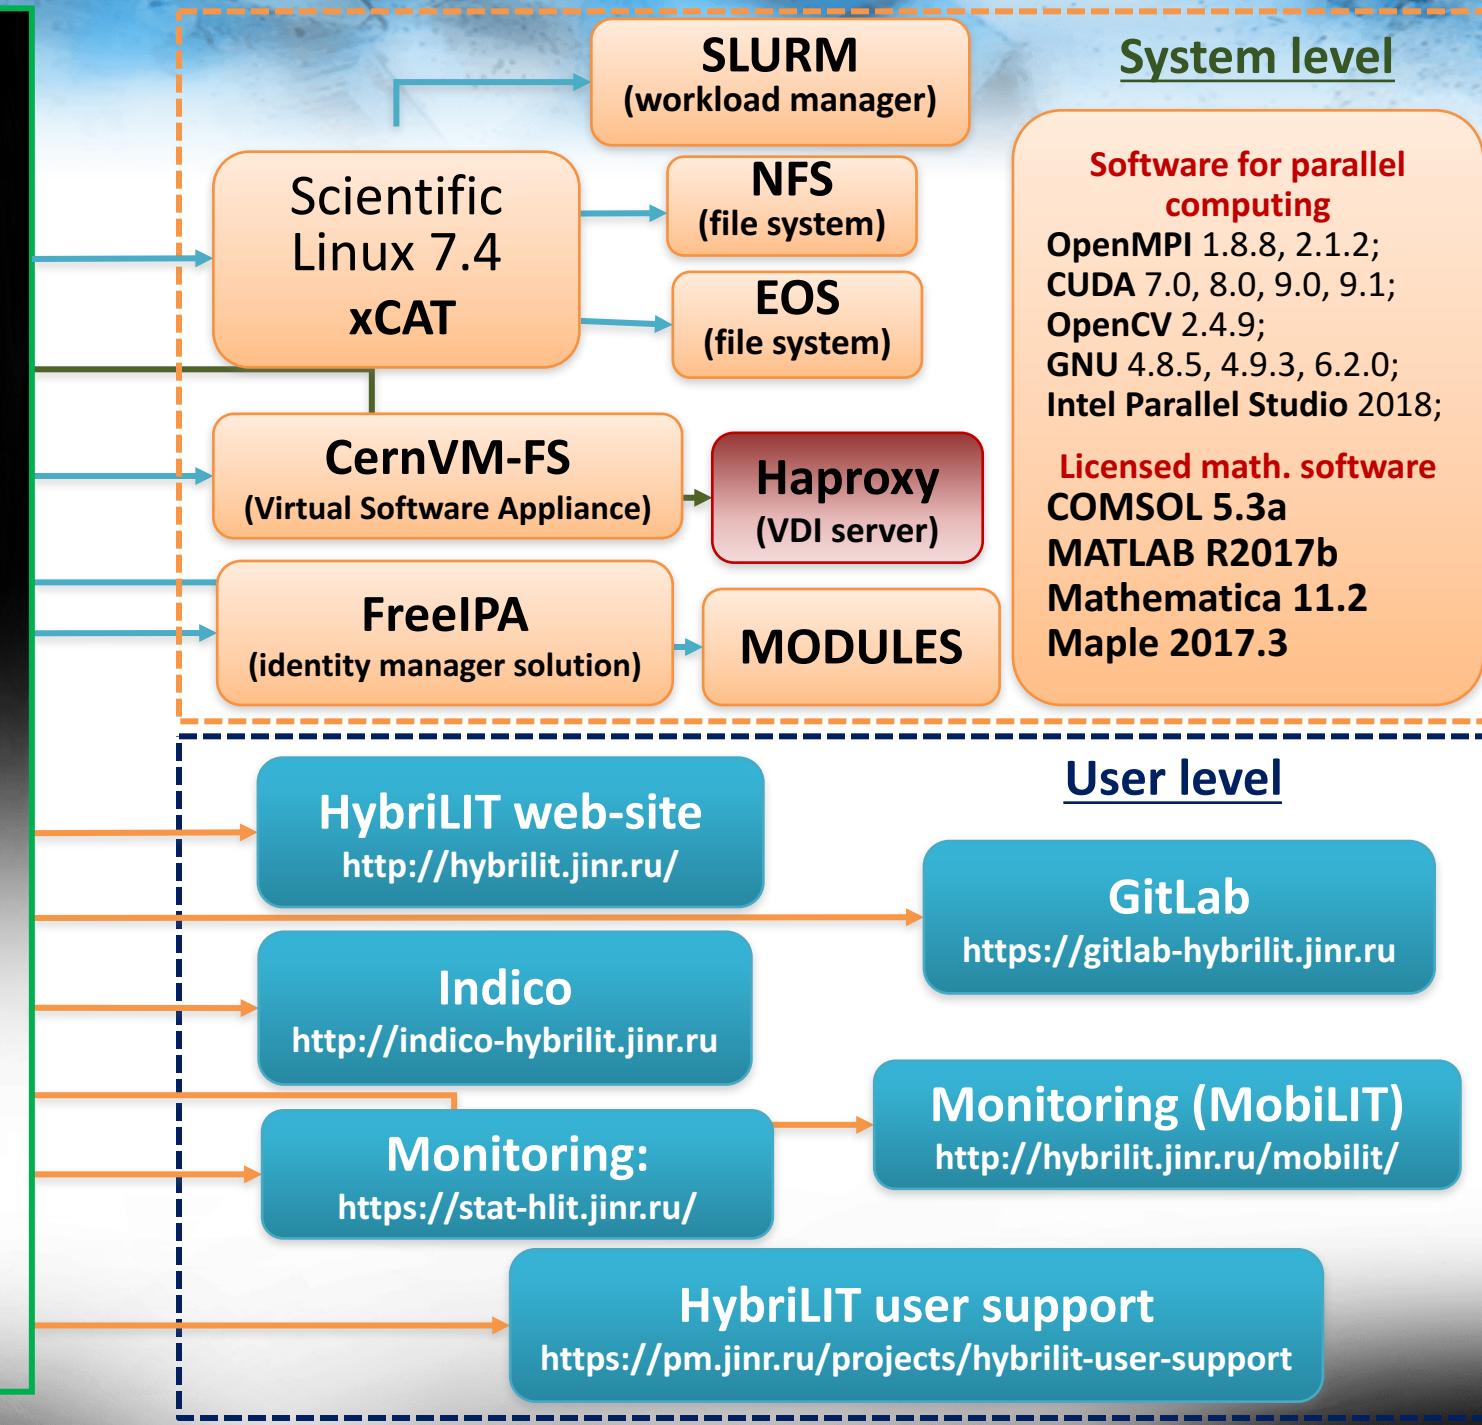

Volta
205 000 CUDA cores
26 000 Tensor cores
K40, K80
78 000 CUDA cores

Peak Performance: 1 PFlops

Heterogeneous computations in JINR
