

# The 8th International Conference "Distributed Computing and Grid-technologies in Science and Education" (GRID 2018)

## Tuesday, September 11, 2018

### 10. Databases, Distributed Storage systems, Datalakes - 406A (1:30 PM - 3:00 PM)

time	[id] title	presenter
1:30 PM	[339] Geometry Database for the CBM experiment and its first application to experiments in the NICA project	FILOZOVA, Irina
1:45 PM	[241] Вероятностный макроэкономический подход к оптимизации распределенных систем хранения данных физических экспериментов	PRIAKHINA, Daria
2:00 PM	[344] WLCG data lake prototype for HL-LHC	
2:15 PM	[192] A new approach to the development of provenance metadata management systems for large scientific experiments	Dr DEMICHEV, Andrey
2:30 PM	[296] NRC "KI" participation in DataLake project	Mr KIRYANOV, Andrey
2:45 PM	[221] Integrating LEAF to data management workflow in LHAASO	Mr LI, Haibo

### 10. Databases, Distributed Storage systems, Datalakes - 406A (3:30 PM - 4:15 PM)

time	[id] title	presenter
3:30 PM	[316] Data Knowledge Base for the ATLAS collaboration	Mrs GOLOSOVA, Marina
3:45 PM	[265] A distributed data warehouse system for astroparticle physics	Mr NGUYEN, Minh Duc
4:00 PM	[184] Problems of date and time data types in relational model of data	Prof. DIMITROV, Vladimir
