

GEANT4 Simulations for Spin Physics Detector

The Straw Tube Tracker

Vahagn Ivanyan

Postdoctoral Researcher
(DLNP, JINR)

vivanyan@jinr.ru

20 / November / 2024

Outline

- Introduction
- Status of a Tracker simulations
- Five Layer Ring version of the Tracker
- Straw Tracker Octant version
- Future Plans
- Conclusion

Contribution by the author (Vahagn Ivanyan):

Simulations of the Detector Response (Currently: The Straw Tracker)

Introduction

Program features for:

a) Hits (Hit Time)

b) Drift Time VS Drift Distance

c) Digits (digitization time)

Program used for Geometry: *GeoModel version 6.3*
Simulations: *GEANT4 version 11.2.2*

Status of a Tracker simulations

Geometry

GeoModel/GEANT4 based geometrical representation of a Tracker

Physics List

High Energy physics list

Primary Generator

1. Proton beam passing through the tracker
2. Pythia based particle generator*

* Should be integrated soon.

Run/RunAction

Events & Steps

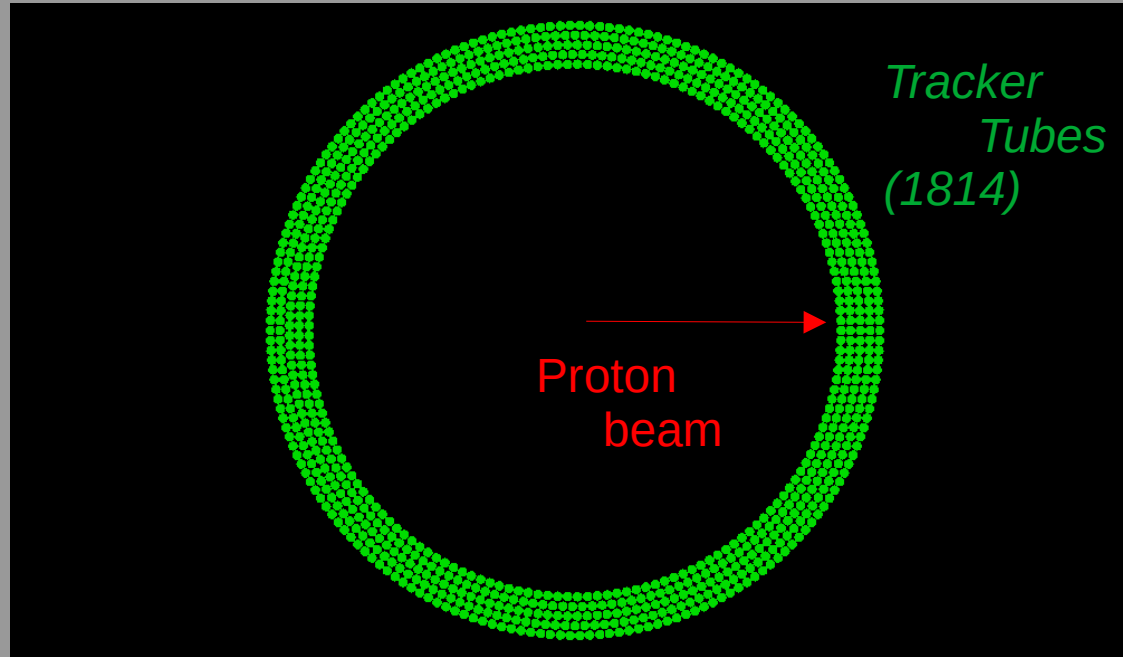

Hits

Interactions with matter/gas
(inside of the tracker tube)

Digitization

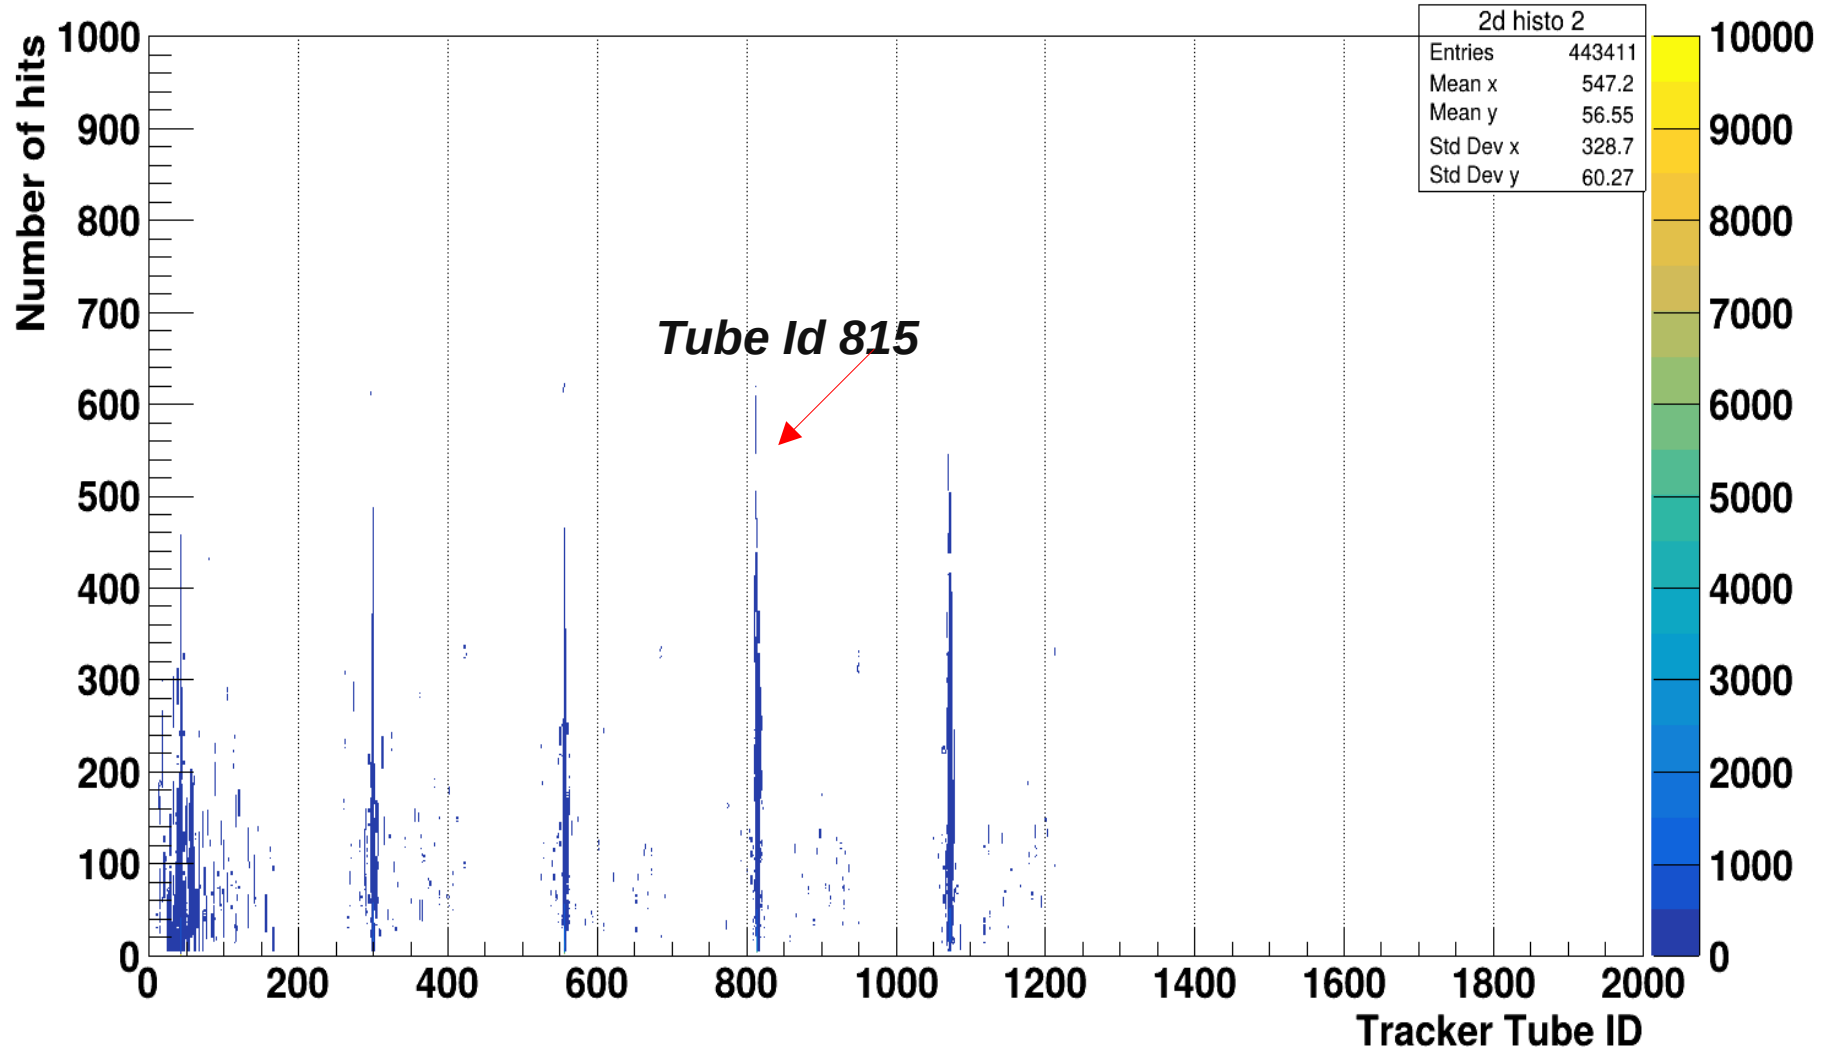

Detection of the signals by imaginary string located at the center of each of the tracker tube

Five Layer Ring version of the Tracker

Point Source Proton beam coordinates (0, 0, 0)

Number of hits per Tracker Tube

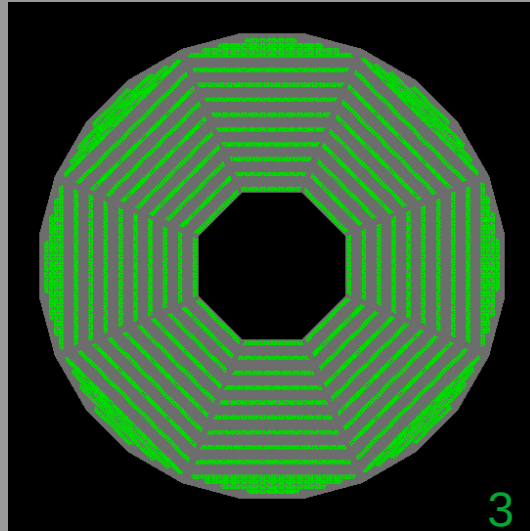

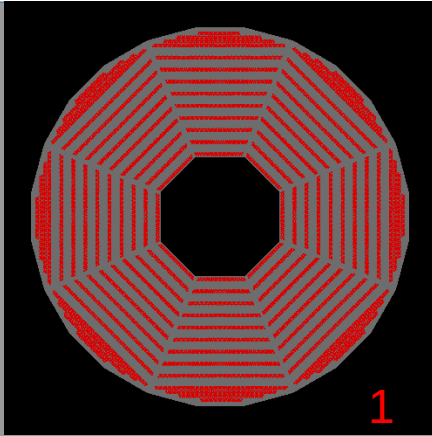

Digitization

time VS distance

Straw Tracker Octant version

Volume Names

- 1) ST_bar_v_gas (Red)
- 2) ST_bar_max_gas (Blue)
- 3) ST_bar_rv_gas (Green)

Note: Due to overlaps some volumes are not "workable".

Digitization

Drift time + Hit time = digiTime

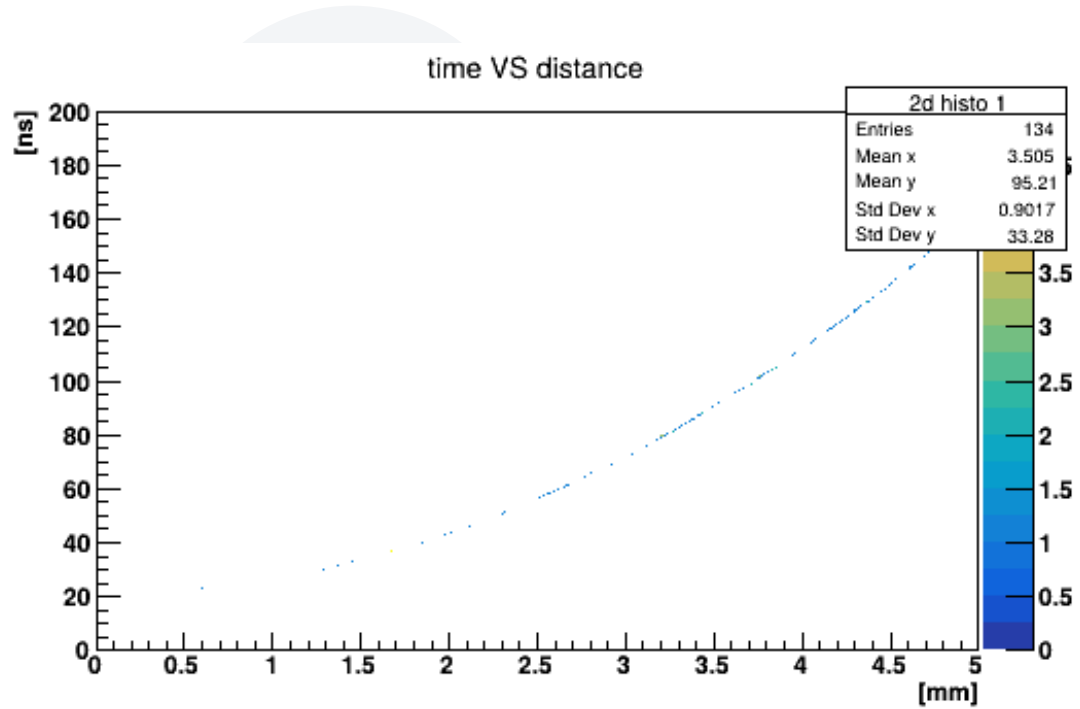

Drift time + Hit time = digiTime

Hit time is the time from the center of the source to the hit point.

time VS distance

Volume Name: St_bar_v_gas

Volume Name: St_bar_max_gas

time VS distance

Volume Name: St_bar_rv_gas

Future Plans

GEANT4 simulations for the Straw Tracker (Octant)

- Digitization correctness
- Integration of the Pythia program

To check and remake if needed!

Ring version of the Tracker

- Geometry (GeoModel / Geant4) +
 - Hits +
 - Digits +

Octant version of the Tracker (Straw Tube Tracker)

- Geometry (GeoModel / Geant4) + -
 - Hits + -
 - Digits + -

ID	Volume Name	Entries/Events
33797	ST_bar_v_gas	137/10000
2359301	ST_bar_max_gas	134/10000
2786309	ST_bar_rv_gas	772/10000

Note: (+-) means need to be checked and changed!

The background of the slide features several diagonal grey bars of varying lengths and shades, creating a modern, geometric pattern. The bars are positioned in the corners and along the sides, leaving a large white central area for the text.

Thank You
