## **N= 2 supersymmetry and higher-spin theories**

*Monday 9 June 2025 13:40 (10 minutes)*

I will give a brief overview of the amazing theoretical phenomena that are observed in the N=2 supersymmetric higher spin theories. The talk is based on the results obtained in BLTP jointly with Professor E.A. Ivanov and Professor I.L. Buchbinder

### **Summary**

**Presenter:** ZAIGRAEV, Nikita (JINR, MIPT)

**Session Classification:** Section Talks

**Track Classification:** Sectional talks: BLTP
