

Session Program

15–17 Dec 2025

**Workshop on physics performance studies at NICA
(NICA-2025)**

Day 3 - Day Session

Wednesday 17 December

13:00

Day 3 - Day Session

Session | Location: Virtual via ZOOM, Moscow time | Convener: Valery Troshin

13:00–13:35

Untangling the interplay of the Equation-of-State and the Collision Term towards the generation of Directed and Elliptic Flow at intermediate energies

Speaker

Joerg Aichelin

13:35–14:10**BWTP model for hadrons pT-spectra and elliptic flow v2****Speaker**

Smbat Grigoryan

14:10–14:40**Common Discussion**

14:40
