Session Program

15–19 Jun 2026

International Conference on Condensed Matter Research at the IBR-2 devoted to the 90th anniversary of Yury M. Ostanevich

Soft Matter 2nd session

Tuesday 16 June

11:00

Soft Matter 2nd session: - Chairman: V. Molchanov

Session | **Location:** 20 Joliot-Curie St., MLIT, Dubna, Moscow Region, Russia, 141980

11:00–11:30

Basic principles of small-angle scattering in the study of the structure of disordered systems

Speaker
Vladimir Volkov

11:30–12:00

Ordering of soft nanomaterials: from space filling to close packing

Speaker
Artem Bakirov

12:00–12:20

Stoichiometric constraints as a route to more reliable SAXS analysis of membrane proteins in detergent

Speaker
Yury Ryzhykau

12:20–12:40

Ferritin-based hybrids for vaccines, drug delivery and imaging platforms

Speaker
Alexey Vlasov

12:40–13:00

Enhanced adhesion strength in polymer composites modified with hybrid nanodiamond/graphite particles

Speaker
Tikhon Kurkin

13:00
