Session Program

15–19 Jun 2026

International Conference on Condensed Matter Research at the IBR-2 devoted to the 90th anniversary of Yury M. Ostanevich

IBR2 Instruments and Nano scattering Techniques 1st session

Thursday 18 June

09:30

IBR2 Instruments and Nano scattering Techniques 1st session: - Chairman: D. P. Kozlenko

Session | **Location:** 20 Joliot-Curie St., MLIT, Dubna, Moscow Region, Russia, 141980

09:30–10:00 **On the Shoulders of Giants: From YuMO's Brilliant Past to Its Bright Future.**

Speaker
Oleksandr Ivankov

10:00–10:20

Magnetic Order and Dynamics in Frustrated Magnets: The Indispensable Role of Local NMR Measurements in Combination with Neutron Scattering

Speaker
Sergei Zhurenko

10:20–10:40 **Development of the SKAT diffractometer**

Speaker
Dmitry Nikolayev

10:40–11:00

Data acquisition system based on the R5560 digitizer with Open FPGA for the wide-aperture detector of the high-resolution neutron Fourier diffractometer HRFD

Speaker
Elena Litvinenko

11:00
