

**27-30 August 2015** Laboratory of Information Technologies

## **Dubna Workshop "Computational Modelling in Complex Systems" 2015**

The workshop is devoted to modern computational methods, algorithms and tools for modelling complex physical phenomena and technical systems. Topics include: modelling in biophysics, astrophysics, stochastic dynamics, optics and accelerator technics.

The workshop is organized by the group for Modeling nonlinear systems (LIT, JINR) and will be held at the Laboratory of Information Technologies of the Joint Institute for Nuclear Research (Dubna) on August 27 - 30, 2015.

### **International Program Committee**

Chin-Kun Hu (Institute of Physics of Academia Sinica, Taipei)  
Edik Hayryan (Laboratory of Information Technologies of JINR, Dubna)  
Michal Hnatic (Bogoliubov Laboratory of Theoretical Physics of JINR, Dubna)  
Yuri Lobanov (Veksler and Baldin Laboratory of High Energy Physics, Dubna)  
Igor Puzynin (Laboratory of Information Technologies of JINR, Dubna)  
Leonid Sevastyanov (Peoples' Friendship University of Russia, Moscow)  
Jan Busa (Technical University of Kosice, Kosice)

### **Local Organizing Committiee**
