

# JINR educational portal («edu.jinr.ru») — open educational resources and modern visualization tools

Victoria Belaga

JINR 27th Symposium on Nuclear Electronics and Computing – NEC'2019  
Budva, Montenegro  
30 September – 4 October, 2019

# Massive Open Online Courses (MOOC)

For 2018:  
the total number of MOOC students  
**100 million**,  
and by the end of the year more than  
**900 universities**  
around the world announced  
**11 400** of MOOCs.

## Bench-marks

There are relatively few specialized courses developed by scientists working in modern scientific experiments. Such online courses can contribute, on the one hand, to attract the attention of students to the topics of modern experiments, and, on the other hand, reduce the time for training personnel for these experiments.

### Tasks:

- popularization of modern scientific research, achievements in science and technology,
- increasing the attractiveness of scientific and scientific-technical careers for students and graduates,
- attracting young scientists and specialists to participate in specific research projects,
- professional development of school and university teachers,
- possibility to include materials related to modern achievements in science and technology in traditional educational courses.

### New video course: Megascience project NICA

We are pleased to present you the **first video course about megascience project NICA and collider technology!** This course consists of 8 sections and talks about scientific mega-projects, particle accelerators at JINR, structure and tasks of the NICA complex, factory of superconducting magnets and cryogenic complex.

The staff of the Veksler and Baldin Laboratory of High Energy Physics (Anatoly Sidorin, Sergey Kostromin, Anton Konstantinov, Sidorov Nikita, Marina Osmachko) and the Development and creation of educational programs department (Anna Komarova, Caren Rossouw, Oleg Smirnov) prepared this online course.

The course is available in both [English](#) and [Russian](#).

# JINR Research Projects

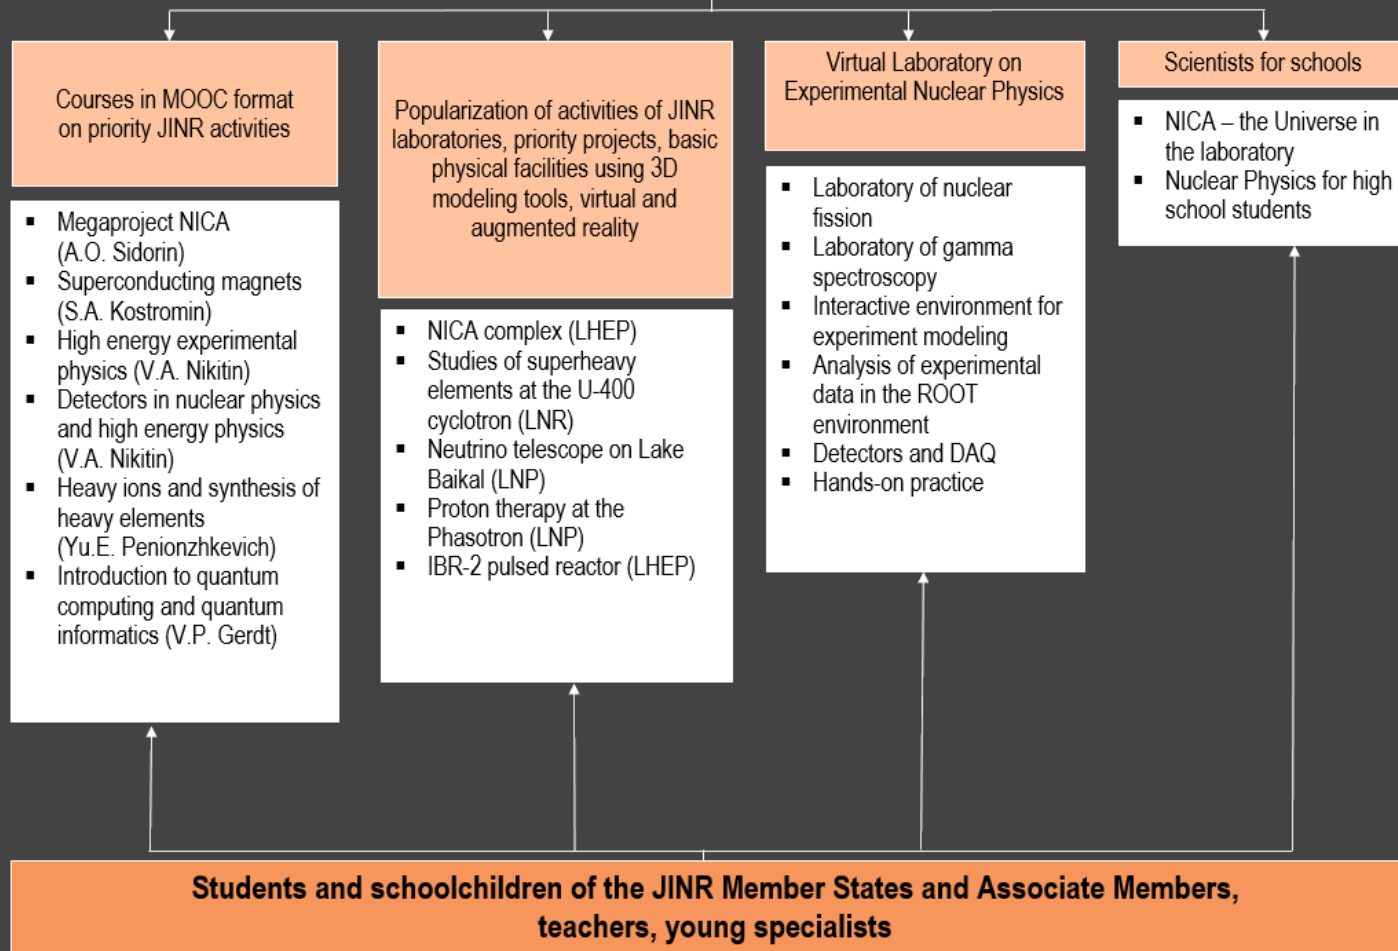

- Accelerator complex NICA (Nuclotron-based Ion Collider fAcility)
- Experiments on the synthesis of new superheavy elements (SHE Factory)
- Research in the field of the physics of condensed state of matter and environmental science carried out at a high-resolution neutron source (IBR-2)
- Deep-water Baikal Neutrino Telescope
- Computing for megaprojects

# Need for Specialists

- experimental physics
- accelerator physics and technology
- distributed computing and working with big data
- cryogenic technique
- biomedical physics
- radiation material science
- radiobiology
- use of neutrons and synchrotron light in applied research

MEGA SCIENCE PROJECTS NICA

SUPERCONDUCTING MAGNETS

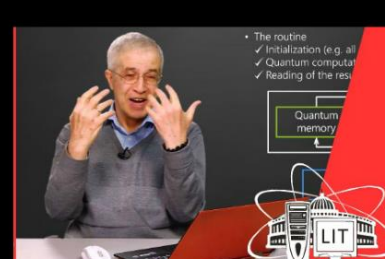

EXPERIMENTAL HIGH-ENERGY PHYSICS

HEAVY IONS AND THE SYNTHESIS  
OF HEAVY ELEMENTS

DETECTORS IN THE NUCLEAR  
AND HIGH ENERGY PHYSICS

INTRODUCTION TO QUANTUM COMPUTATION  
AND QUANTUM INFORMATION

# Online Courses of JINR Specialists

## Ядерные реакции синтеза сверхтяжелых элементов

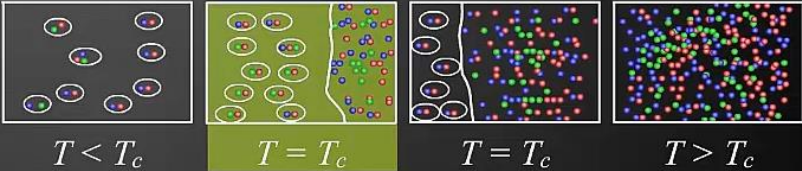

ПЕРСПЕКТИВЫ СИНТЕЗА СВЕРХТЯЖЕЛЫХ ЭЛЕМЕНТОВ

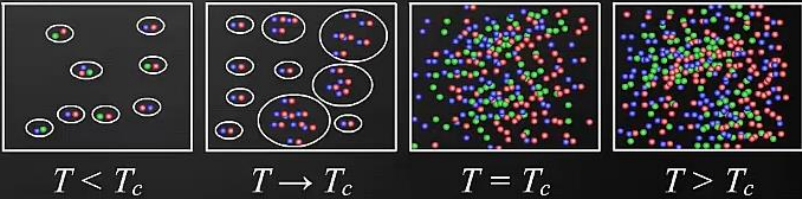

# Online Courses of JINR Specialists

Фазовый переход первого рода

$T < T_c$     $T = T_c$     $T = T_c$     $T > T_c$

Фазовый переход второго рода и более высокого порядка

$T < T_c$     $T \rightarrow T_c$     $T = T_c$     $T > T_c$

EDU JINR

# Online Courses of JINR Specialists

## Superconducting accelerator complex NICA (Nuclotron based Ion Collider fAcility)

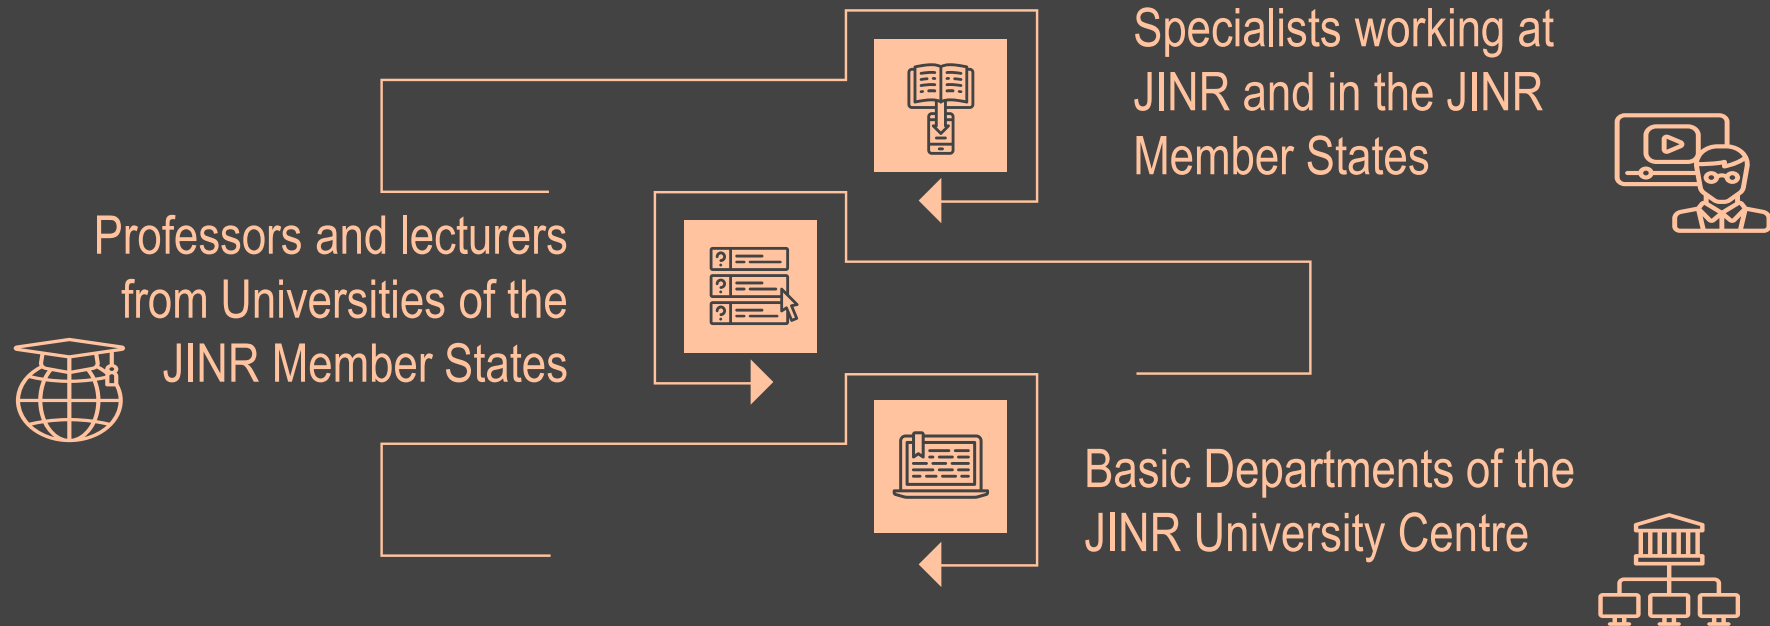

# Online Courses of JINR Specialists

# Content development for online courses and new educational programs

Development Technology

# LMS (Learning Management System)

- Learning Planning
- Role distribution
- Organization of knowledge and competency testing
- Opportunities for various training material support
- User interaction opportunities in the system

The background is a solid light orange color. In the upper half, there are three stylized orange clouds of varying shapes. In the lower half, there is a large, wavy orange shape representing a hill or dune. At the base of this hill, on the left and right sides, are two stylized dark blue plants with multiple pointed leaves.

**Thank you for your attention!**
