

Study of interaction of charged light particles with 1p shell nuclei

Wednesday, April 17, 2019 5:00 PM (15 minutes)

The work is devoted to experimental and theoretical study of charged light particles elastic and inelastic scattering processes from ^9Be , ^{11}B and ^{12}C nuclei by measuring differential cross sections of these processes and their further analysis.

Primary author: Dr JANSEITOV, Daniyar (BLTP/INP)

Co-authors: Prof. DEMYANOVA, Alla (NRC Kurchatov Institute (Moscow, Russia)); Dr DANILOV, Andrey (NRC Kurchatov Institute (Moscow, Russia)); Mr AIMAGANBETOV, Azamat (Eurasian National University (Astana, Kazakhstan)); Dr ALIMOV, Dilshod (Institute of Nuclear Physics (Almaty, Kazakhstan)); Prof. BURTEBAYEV, Nassurlla (Institute of Nuclear Physics (Almaty, Kazakhstan)); Dr MUKHAMEJANOV, Yerzhan (Institute of Nuclear Physics (Almaty, Kazakhstan)); Dr KERIMKULOV, Zhambul (Institute of Nuclear Physics (Almaty, Kazakhstan))

Presenter: Dr JANSEITOV, Daniyar (BLTP/INP)

Session Classification: Nuclear Physics

Track Classification: Nuclear Physics
