Smart Cloud Scheduler

Friday, 8 July 2016 13:00 (15 minutes)

Several years of experience in managing the LIT JINR Cloud service have revealed some shortcomings and reasons of its underutilization. A need and possibilities of the cloud infrastructure optimization is demonstrated. The talk covers the Smart Cloud Scheduler project development process aimed at optimizing the JINR Cloud utilization through a dynamic reallocation and consolidation of virtual resources with a minimal impact on the cloud users' applications.

Primary authors: BARANOV, Alexandr ((JINR)); Mr NECHAEVSKIY, Andrey (JINR); Mr PELEVANYUK, Igor (JINR); Mr KADOCHNIKOV, Ivan (JINR); Mr BALASHOV, Nikita (JINR); Dr KUTOVSKIY, Nikolay (JINR); Dr KORENKOV, Vladimir (JINR)

Presenter: Mr BALASHOV, Nikita (JINR)

Session Classification: 6. Cloud computing, Virtualization

Track Classification: 6. Cloud computing, Virtualization
